

To the **Scott** Owner.

*A
Note
in
your
ear.*

Here is illustrated the front of a special **Scott** horn, the distinctive appearance of which is in keeping with the best motor cycle in the world.

LET IT BE A WARNING FOR YOU !!

In response to numerous enquiries we have produced a special high frequency horn of exceptional beauty, which will harmonise perfectly with the rest of your machine. The large polished front of distinctive design, with gold and enamel Scott badge render it outstandingly impressive.

Embodying unique principles of high frequency sound production, this horn is without question the most powerful of its class. The note is free from any harshness, its tone is polite yet insistent, possessing a definite character of its own, and the current consumption is negligible.

The front of the horn is 5-in. diameter.

Price **22/6**
